

DISCOVER MORE WITH CURI AND VENOPS

Open Payments & Exclusion List Reporting

Enhanced Open Payments reporting, combined with federal and state exclusion list monitoring, gives you consolidated reporting for two important programs, offered at no additional charge, as a benefit of being a Curi Insurance client.

OPEN PAYMENT REPORTING

Since its inception in 2014, the CMS open payments database has made all payments to physicians from pharmaceutical and medical device companies available to the public in a searchable format.

Our partnership with Venops provides you with enhanced access to Open Payments data, giving you an early look so that you can be prepared to respond and rectify any potential cases of erroneous information.

EXCLUSION LIST REPORTING

To help our client practices and organizations keep up with federal and state exclusion lists, Curi provides access to a monitoring service through Venops. This service will allow you to:

- Track your providers, employees, and vendors against the relevant federal and state exclusion list every month
- Send you a monthly report to help you stay compliant
- Archive your monthly tracking reports on the Venops website

To learn more and use these services, visit curi.com, sign in, and follow the prompts under Open Payments Database and Exclusion List Monitoring.

Disclaimer: Curi Insurance is pleased to offer payment and exclusion list reporting services to medical practices. Curi Insurance has arranged for external partner Venops to provide these reporting services to Curi's medical professional liability policyholders and clients. Venops and Venops's employees are solely responsible for any advice and any content/resources Venops provides. Curi Insurance and Venops cannot and do not offer legal or tax advice; therefore, if you or your practice are in need of either, please consult your independent or corporate lawyer or tax professional.
